

Dr. Riter's REAL-EaSE® New and Improved Design!!

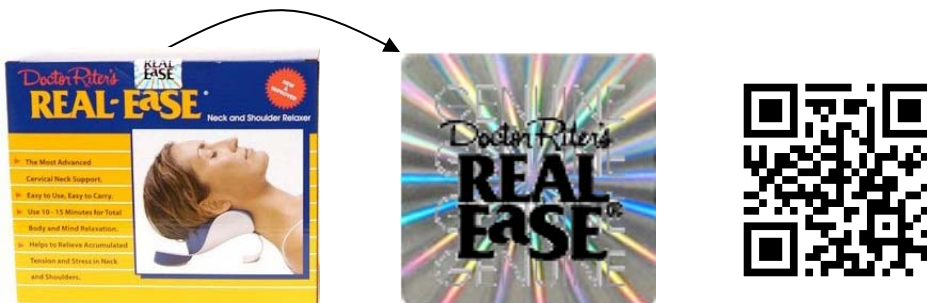

The elegant simplicity and functionality of our Dr. Riter's REAL-EaSE® neck support made it seem as though it could not be improved...but we've done it!!

You have let us know what you love about the REAL-EaSE and what you think could be improved. We have listened to your comments and our design team has made changes that we know you will love. The New & Improved REAL-EaSE will serve your neck and back even better than before, using the same remarkable dynamic principles and angle that make this passive, yet dynamic tool so successful.

With improved spring and flexibility, the REAL-EaSE gives more support and gentle relaxation as your neck and back tension melt away. It is the weight of the head at the angle we designed that ensures the gentle release you have come to know and expect from REAL-EaSE.

Please accept no substitutes for our Dr. Riter's Brand. **Kenshin Trading is the only manufacturer of REAL-EaSE in the world.**

Look for our hologram and QR Code that ensure you are getting a genuine product.

Visit our web site www.kenshin.com to see if you are getting the 'real' REAL-EaSE and see for yourself how the New & Improved REAL-EaSE will serve your neck and back even better than before.
